SKINGENUITY® BY JUVENTIX AESTHETICS

SKINGENUITY®

TARGETED REGENERATIVE AESTHETICS

DESIGNED FOR MODERN AESTHETIC PRACTICES

MADE IN USA

— THE SCIENCE —

DONOR-FREE. CELL-FREE.

Growth factors are the proteins cells use to signal to one another. SkinGenuity's are recombinant: made in the laboratory with the same sequence as the human protein, never taken from a donor, from cells or from the client's own blood.

01

SKIN REGENERATIVE SOLUTION.

Improves skin quality and signs of ageing.

10 Recombinant growth factors

HGF · Mini EGF · KGF · PDGF · TGF-β3 · FGF-10 · IGF-1 · IGF-2 · aFGF · bFGF

3 Encapsulated DNA-repair complexes

Ultrasomes · Roxisomes · Photosomes

+ Hyaluronic acid

PAIRS WITH

Micro-needling

RF micro-needling

Micro-channelling

Post-laser resurfacing

For topical use only · Not for injection

HOW SKINGENUITY IS DIFFERENT?

EXISTING GROWTH-FACTOR SOLUTIONS ON THE MARKET

PLANT-BASED	DONOR-DERIVED	PATIENT-DERIVED
PLANT SOURCES	ALLOGENIC	AUTOLOGOUS

VS

THE SKINGENUITY DIFFERENCE

RECOMBINANT · BIO-ENGINEERED/SYNTHETIC

Made in the laboratory: donor-free, cell-free and no blood draw. The same defined blend in every vial.

INTER-CELL MESSENGER TECHNOLOGY

01 TARGETED

Specific growth factors are chosen for each use, one blend for the skin and another for the scalp, to deliver the best outcomes.

02 CONSISTENT

Every growth factor is produced by recombinant technology, so every vial carries the same defined formula.

03 COMBINED

The blend is formulated with hyaluronic acid and, in the skin solution, three encapsulated DNA-repair complexes.

02

HAIR RESTORATION SOLUTION.

Supports thicker, fuller-looking hair, for men and women.

11 Recombinant growth factors

Noggin · IGF-1 · IGF-2 · aFGF · bFGF · KGF · KGF-2 · PDGF · HGF · EGF · SCF

+ Hyaluronic acid

IN THE CLINIC

Scalp micro-needling

For men & women

Professional use only

Focused on the scalp

For topical use only · Not for injection

MADE FOR THE TREATMENT ROOM.

SkinGenuity is sold business to business only. It gives your clinic a growth-factor treatment that clients cannot buy in a pharmacy, with a clear story behind it.

NO BLOOD DRAW

The growth factors come ready in the vial. Unlike PRP, nothing is drawn from the client and nothing needs a centrifuge.

STERILE, SINGLE-USE VIALS

One sealed 5 mL vial per client, per session. Every box is batch-coded, with a 2-year shelf life.

ONLY IN-CLINIC USAGE

Applied by trained professionals in the clinic, on its own or as part of your in-clinic treatments.

PROFESSIONAL CHANNEL ONLY

Supplied to licensed clinics and practitioners and never sold to consumers, which protects your positioning.
